Mental Health and wellbeing in schools
Supporting pupils, families and school staff in Scotland
Mental health and schools

Pupils cannot thrive at school if emotional issues distract them in class. Teachers cannot teach effectively if pupils cannot concentrate. That is why promoting good mental health is everyone’s business – from headteachers and school leaders, to teaching assistants and playground supervisors.

One in six children and young people have a diagnosable mental health problem
NHS Digital, 2020

Half of all mental health problems are established by the age of 14.
Kessler R and Wang P, 2007

1 in 4 children and young people in Scotland are turned away from specialist mental health services
Public Health Scotland, March 2021
Who we are

Place2Be is a UK children’s mental health charity. We provide in-school support and expert training to improve the emotional wellbeing of pupils, families, teachers and staff.

Starting with an initial pilot in two Edinburgh primary schools, Place2Be Scotland now reaches over 22,000 pupils and their families in schools across Glasgow, Edinburgh, South Lanarkshire, Renfrewshire, Perth and Kinross, Angus and Dundee, South Ayrshire and the Highlands.

Place2Be’s mental health practitioners currently work directly within over 90 school communities.

How we help

Our mission
To improve the mental wellbeing and prospects of children, their families and school communities across the UK.

Our vision
Children should not have to face mental health problems alone. Place2Be’s vision is for all children to have the vital support they need to help them build lifelong coping skills and thrive.

Working in close partnership with school leaders, we offer:

- In-school mental health support for pupils, families and school staff
- One to one counselling and online support to primary and high school pupils.
- Training for teachers, school leaders and school staff
- Reflective supervision and supportive forums for teachers, school leaders and school staff
- Accredited qualifications up to Postgraduate Diploma and Masters level for individuals looking to become child counsellors, to ensure schools have access to qualified, experienced professionals.

“It’s been so transformational for the lives of so many individuals and the impact on the general school ethos. It’s about the quality of the support Place2Be provides and it’s very responsive to the children’s needs.”

Vanessa Thomson, Headteacher, Oakwood Primary School, Glasgow
In-school support

Place2Be provides mental health services in primary and high schools, offering vital therapeutic and counselling support.

Working within schools, Place2Be’s counselling helps pupils to become more settled, more able to manage their behaviour and to engage in learning. With Place2Be working in partnership with a school, teachers are able to focus on teaching and parents feel more confident and able to support their children.

Our mental health professional is also on hand to respond swiftly to critical incidents, engage with external agencies and assist on issues relating to children and young people’s mental wellbeing.

“Place2Be is unique. It’s valued by students, staff and parents. Young people are happier, able to get on with their lives and access their education. That’s what it’s all about.”

Hazel Kinnear, Headteacher, Tynecastle High School

“It’s made me more confident going into high school. If I didn’t have Place2Be, I don’t know where I’d be right now.”

13 year-old boy, Renfrewshire

Face to face and digital counselling support

**Additional expertise**

In-house specialist teams on safeguarding and ASN

*Our school counselling service is a standalone service or can form part of a wider ‘whole-school approach’*
In-school support
- what's included

Our whole-school approach means that we provide support for everyone in the school community – pupils, families and school staff.

By working with Place2Be, schools benefit from our quality assurance, specialist expertise, and integrated approach, as well as a host of other exclusive opportunities via our networks.
Impacts and outcomes in Scotland schools

Many of the children and families we work with lead difficult and complex lives. By providing support at an early stage, we help children learn coping strategies that support them in the long term. View our impact report here.

Of the pupils who have taken part in counselling with Place2Be:

- **68%** cause fewer problems for their teacher or class.
- **65%** of children's difficulties had less impact on their learning.

In Scotland over the past 5 years:

- **1,763 pupils** were supported through one-to-one weekly sessions.
- **10,620 pupils** booked their own session during lunchtime or breaktime.

- **73%** find it easier to have & keep friends.
- **79%** of those with severe difficulties show an improvement in wellbeing.

Mental Health Champions – Foundation programme

Our online Mental Health Champions – Foundation programme will provide you with a deeper understanding of mental health and wellbeing.

This five-week programme is designed to be an introductory or refresher course for professionals who work with children and young people in schools and community settings.

Thanks to our supporters, school staff can access the programme for free for the second year.

What does it cover?

- **Understanding mental health and wellbeing** We discuss factors that contribute to positive mental health and wellbeing.
- **Nature and nurture** We explore how early experiences shape the way we perceive ourselves and relate to others, and how those experiences create the pathways in the brain that support our development.
- **How you can help** We consider what a child’s behaviour might be communicating about their underlying needs.
- **Mental health: everybody’s business** We reflect on the importance of positive mental health for everyone, with a focus on the adults around a child.

Course details:

- Five-week programme (1-1.5 hours per week)
- A dedicated Place2Be professional facilitating discussions
- Regular course dates to choose from throughout the year
- You can access the programme on any digital device
- Study at a time that suits you.
- Access to the Place2Be Staffroom, our new Online community containing ongoing CPD resources and free resources to use in schools including termly Art Room projects.

“I found new ways to manage my own stress levels so staff and children had a calmer sense while around me. It was really fascinating and a different journey that I am enjoying being a part of.”

“My son was bullied pretty bad and it had a long lasting effect on him. After working with Place2Be, the difference from one year to the next in him was unbelievable. They supported him, gave him the tools. He’s a different boy. He’s confident. He doesn’t fear things he was scared of.”
