

Appendix 2: Summary of what information should be collected, when and why

The tables below set out for each intervention type, the information that should be collected, when it should be collected and the purpose of collecting the information. Overall, the information collected is gathered in order to:

- Inform the Place2Be School Project Manager (or Place2Be Counsellor¹) or Parent Counsellor about the children, young people and parents they see and inform the assessment and formulation process
- Enable Place2Be to monitor its services
- Enable Place2Be to evaluate the outcomes of its services.

Intervention type: Place2Talk

| What to collect | When to collect it | Why collect it |
|---------------------|------------------------|--|
| Name | When child self-refers | To uniquely identify children so we can count the |
| Date of birth | When child attends | reach and uptake of our service |
| | PlaceTalk | |
| Gender | When child attends | To monitor our reach and who is using our service |
| | PlaceTalk | |
| Year Group | When child attends | |
| | PlaceTalk | |
| Ethnicity | When child attends | |
| | PlaceTalk | |
| Issues discussed | When child attends | To review the main issues that are concerning |
| | PlaceTalk | children to demonstrate the need for our service and |
| | | be a voice for children and young people |
| Child Protection | When child attends | To ensure we are undertaking our child protection |
| concerns and action | PlaceTalk | responsibilities |
| taken | | |

¹ These may be an Assistant School Project Manager, a School-based Counsellor, or a Mental Health Practitioner.
